EIPC-EFRA-CEFIC Workshop

In conjunction with CEFIC and EFRA (the European Flame Retardants Association), EIPC are pleased to announce that they will be holding a half-day workshop (10:00-14:00 h.) on Wednesday 4th February 2015 at the NH Hotel, Munich Airport. This is the day immediately before the EIPC Winter Conference which will be held at the same venue on 5th & 6th February.

Flame retardants find use in many segments of the electronics industry; all of which provide protection from fire hazards to improve user safety.

During this workshop you will learn about the following topics;

- EU Legislative framework, RoHS REACH and WEEE and End of Life
- Possible impact of EU legislation on future PCB manufacture in Europe
- Legislative status of TBBPA, the most widely used flame retardant in PCBs

The speakers will include Alun Morgan, Chairman EIPC, Professor Martin Goosey, VP Technology EIPC who will be accompanied by Mr. L. Tange of ICL.

Workshop agenda:

- Introduction EFRA
- Overview on Legislation - Prof. M. Goosey
- Flame retardant use in PCB Base Materials - A. Morgan
- Lunch
- RoHS 2, current status and future impact - F.Kohl
- Recycling, end of life - L. Tange
- REACH process for end users - EFRA
- Panel Q&A"

Workshop fee:

EIPC Members/EFRA members: € 200.-

Non-members: € 300.-

Additional employee from the same company 20% discount: € 160.- / € 240
